RE: Permit-By-Rule Authorization – Transfer of Ownership
Oros & Busch Environmental – LND 66-0046
Property Owner: Kenneth Cheatham

Dear Ms. Engemann:

This letter will serve as official notice that this Division has received and approved your Permit-By-Rule notification for change of ownership for the referenced 342 acres, located in Obion County, at 2146 Oakshire Road, Union City, Tennessee (latitude 36°25'06" N/longitude 88°00'00" W), also known as the Kenneth Cheatham property (includes Field ID numbers KC-1, KC-2, KC-3, KC-4, KC-5, and KC-6), for land application of sludge from the Tyson's waste sludge ponds for agronomic benefit. The new permittee of record is Oros & Busch Environmental Technologies, Inc.

Further, the permittee is to provide the Division an update on the application rate before the next time the waste sludge ponds are emptied for land application. Also, the Division must approve in writing the addition of other waste streams prior to land application at this site. This facility shall be deemed to have a Permit-By-Rule, provided the criteria of Rule 1200-1-7-.13 continue to be met, and provided that the application rates do not exceed the nutrient requirements of the target crop.

The registration number for this facility is **LND 66-0046**. This number should be used on all reports and correspondence to the Department regarding this land application site.

Please be aware that an annual report is due on or before March 1st of each calendar year, and covering the period extending from January 1 through December 31 of the previous calendar year. The reporting requirements are found at Tennessee Rule 1200-1-7-.13(2)(e). Additionally, the annual report is to include information on the specific crop harvested, as well as the approximate yield per acre. In the event that multiple crops are grown within the permitted parcel, provide the total number of acres growing each crop, and the approximate yield per crop, per acre.

Ms. Christina Engemann
